

ABOUT US

DNA Data Systems Established 1984

We have successfully implemented practice management software, electronic medical records, and provided medical billing services to hundreds of small, medium, and large medical practices. We have solved the data processing problems for all specialties and created IT solutions in healthcare for over thirty years.

We are completely aware of the difficulties medical practices face with the regulations, requirements, and cutbacks from payers that can make practicing medicine challenging and time consuming. Our products are designed to work seamlessly into any practice and makes every member of your staff more efficient, especially the providers!

The DNA Difference

"We continue to have an incredible working relationship with DNA since 2006. Everyone from the CEO, programmers, installers and trainers are professional and experienced with working in the medical field, and we receive same day service. I would never hesitate in recommending them."

*Alice Sottile, Administrator
Allergy & Asthma Associates*

"I have been a satisfied customer for the past 20 years and have used DNA to run our office administration, electronic medical records and use them as our billing service. I would highly recommend DNA Data Systems."

*Morris Hasson, MD
Personal Care Medical Practice*
